#### LACE DOOR PANELS at 50 cents and upwards

## N. S. Sachs Dry Goods Company, Ltd.

### THE ADVANTAGES

## CEMENT ROOFING

POSSESSES OVER TIN, IRON AND STEEL ROOFING

### IT CANNOT RUST

Gases, fumes, moisture, coal soot and smoke cannot injure or affect CEMENT ROOFING. It is better adapted for application over uneven surfaces, such as old shingles or metal roofs, obviating the expense of removing the same. It will not rattle from wind and storm, nor create any noise from rain falling upon it. The materials used in cement roofing are the best non-conductors of heat and cold known; therefore it will keep the building warmer in winter and cooler in summer than a metal roof. Samples and full particulars mailed on request.

## EXPENSE BILL SHAVED

### FEDERAL EXPERIMENT STATION NOT AIDED

### HOUSE SESSIONAL EXPENSES PASSED FIRST READING IN SENATE—REPEALS DO NOT PASS.

The net reduction in the Current Expense Appropriation Bill as it passed second reading in the Senate yesterday afternoon, from the original bill is \$3,461.

Senator Isenberg moved to strike "fencing" from the Hill Park item. "They will be making a cow pasture of it yet," he said, but there was no second to the motion.

Senator Achi wanted to cut the \$25,000 emergency item for the Public Works Department. He moved to reduce it to \$15,000. This was the occasion of a little warm debate. Senator Paris was not in favor of the reduction in this item at all. The Finance Committee had gone over everything with the Superintendent of Public Works and things had been cut as closely as possible. An emergency fund was essential in case of damage to roads by storm and in the event of other otherwise unprovided for necessities. Senator McCandless also contended for the emergency fund. Finally the item passed as in the bill.

Senator Achi succeeded in amending the item of \$110,040 for roads and bridges, general, Honolulu, substituting this item with two items amounting to the same figure: Roads and bridges, Fourth District, \$60,000; roads and bridges, Fifth District, \$50,040.

On motion of Mr. Isenberg, notwithstanding a protest by Mr. Dickey, item of \$2,756 for aid to the U. S. Experiment Station was stricken from the bill.

Finance Committee's report on the current expense bill recommended a few amendments and was adopted; \$4,000 was taken off the Public Commission item and the rider added: "Providing the present race track shall be kept intact, any repairs being made by those using the same. Rent of the kerosene warehouse was reduced \$200 to correct an error. Traveling expenses of Third and Fourth Circuit Judges and court clerks, \$125 in all, were stricken. An item of \$4,000 was inserted for the Land Registration Court. Police incidentals were put in as a lump sum of \$16,800 for the Territory instead of \$4,800 for Hawaii and \$12,000 for the rest of the Islands.

The Judiciary Committee reported on repeal bills. They thought they should not pass. They recommended that Act 13 be amended by adding the following section:

"Section 5a. No payments shall be made under any of the appropriations under this Act for any bills incurred after June 30, 1904."

The bill to repeal this Act should not pass "for the reason that bills which may be incurred before or on June 30, 1904, may not be legally paid afterward."

Similar action was taken in reference to the bill to repeal Act 17, salaries, etc., with the following as the amendment to the Act:

"Section 5a. No payments shall be made under any appropriations of this Act for any services performed after June 30, 1904."

Committee reported as follows in regard to the Loan Appropriation Bill:

"The Judiciary Committee, to whom was referred Senate Bill No. 5, report that the object of the bill is to repeal Act 18 of the extra session of 1903. After due consideration, we do not believe that the bill should pass, for the reason that any new loan appropriation bill may require the approval of the President. We recommend that the bill be laid on the table."

Amending bills submitted passed first reading, each report being adopted.

A bill introduced by Senator Dickey relating to costs of court, under suspension of rules, passed first reading. Senator Dickey submitted a concurrent resolution providing that warrants for the payment of salaries and mileage of members should not take precedence of other Treasury warrants. President Crabbe stated that the law did not allow what the resolution was against.

Senate Bill No. 2, \$5,000 for expenses of the Senate in special session, passed third reading.

Senate Bill No. 6, providing that the salary of the Judge of the Land Register

be \$1,800 a year, that of the Registrar \$900 and those of other officers fixed by the Governor, the Act to take effect from and after the 1st day of July, 1904, came up for second reading.

The bill was referred to the Finance Committee.

Senator Achi, in consideration of the appropriation bill, moved to make the \$4,000 for the court "include unpaid bills," but received no support.

The House bill for \$10,000 for that body's expenses passed first reading in the Senate.

### NOTICE TO MARINERS.

(Light of Lights and Fog Signals, Pacific Coast, 1903, page 14, No. 27, and the List of Beacons and Buoys, Pacific Coast, 1903, page 19.)

Notice is hereby given that, on or about April 1, 1904, Light-Vessel No. 70, moored about 3 1/4 miles outside of the bar off the entrance to San Francisco Harbor, will be temporarily withdrawn from her station for repairs, and the station will be marked by a gas buoy, painted red with "light vessel moorings" in black, and showing a fixed white light.

Light vessel No. 70 will be returned to her station as soon as repairs have been completed, and the buoy withdrawn, of which due notice will be given.

### FIELD DAY PREPARATIONS.

Extensive preparations are on foot for the Field Day sports on the Boy's Brigade grounds on Liliha street Saturday, April 16. Officers and committees connected with the event will meet at Y. M. C. A. hall Monday evening to settle final arrangements. Entries will close next Tuesday and there will be a great rivalry between the contestants from Punahou, Kamehameha, the Maile Ilmas and other athletic organizations. Lists and medals will be presented to the victors.

Wing Sing Loy, Nuuanu street near Hotel, has received a very choice and full line of white dress goods, gingham, calicoes, blankets, comforters, towels, bedspreads, boys hats and caps, bonnets, Persian and Victoria lawns.

## Books, Bookish People and Things

We get no good by being ungenerous even to a book.

E. B. Browning.

Bulletin No. 8 of The Post Graduate Medical School of Chicago.

Fully illustrated, giving a description of the work done at the school by professors and students.

There are also lists of hospitals and eleemosynary institutions in Chicago, and maps for the convenience of new comers. The course seems to be very complete and the equipment of the laboratories equal to any. Dr. F. H. Martin is the dean.

"Copyright." From Vol. 9, Cyclopedia of Law and Procedure. Edited by Edmund Westmore, sometime president of the American Bar Association. Leather covers, 88 pp. American Law Book Co., 76 William St., New York.

A very valuable little manual to have for reference. Of particular use to lawyers, authors and publishers, of course. Many important law suits arising out of copyright infringements are cited.

"The Best Law Books and Their Authors." Half tones of many American writers on law and a list of abbreviations of American, English and Canadian reports. American Law Book Co., New York.

"Syllabus of the London School of Tropical Medicine." Seaman's Hospital Society, Albert Dock, E. Greenwich.

A full description of the famous school started by Jos. Chamberlain some three years ago. The reason for the school is succinctly stated: "Previous to its inception there were no adequate means whereby private practitioners or medical missionaries could proceed to the tropics could acquire special information concerning, or obtain practical instruction in, an im-

## INSINUATING JAP STIRS UP SHOT GUN

Sheriff Fernandez of Ewa is at present investigating a queer story of an attempted rape which took place some miles from Ewa last Tuesday. Fernandez was made aware Thursday that there was something wrong going on at Waimanalo, a small place some miles on the other side of Ewa. He went to investigate and found a plantation stableman there who told him that Mrs. Wagner, a Hawaiian woman, had been made the subject of an attack by a Japanese blacksmith named Akada. This man said that Mrs. Wagner had told him the following story:

Last Tuesday she missed the 3:20 p. m. train and took the 4:15 p. m. train for home instead. She got off at station G. 2. The Wagners live quite a distance from that place. Mrs. Wagner saw Akada and asked him if he had seen her husband. Akada told her that her husband had told him to her home and began to accompany her. After they had proceeded some distance Akada threw Mrs. Wagner down but she managed to escape him. He pursued her with a knife. She ran and on reaching the Waimanalo bridge she jumped under it and called for help. Akada then ran away.

Fernandez says that no complaint has been made to him from the Wagners, probably because they live at such a distant place. He has heard that Wagner has been scouring the neighborhood with a shotgun with the intention of killing his wife's assailant. Fernandez sent officers to the Wagner place to learn the full particulars of the case. Akada had disappeared.

Ever use one of those delightful little Brownie Cameras? Even if they do cost only \$1 and \$2 they take excellent pictures and are popular alike with old and young. Call and see them at Honolulu Photo Supply Co.

## Dr. Shoop's Restorative

Take it a month at my risk. If it succeeds the cost to you is \$5.50. If it fails the druggist will bill the cost to me. And I leave the decision to you.

### Don't Wait Until You Are Worse

Taken in time the suffering of this little one would have been prevented. Her mother writes me:

"Two years ago my little girl was sick continuously for six months. We tried many doctors and they failed, yet it took only two bottles of your remedy to cure her, and she has remained cured. You can tell others of this cure if you so desire. Mrs. C. H. Avery, Rockdale, N.Y."

"In a city she did not first write me before the case was dangerous. The wife of Omer Andrus of Bayou Ghicot, La., had been sick for 30 years. For 8 years could do practically no work. He writes:

"When she first started taking the Restorative she barely weighed 30 pounds; now she weighs 125 and is able easily to do all her housework."

"Twenty 'dark' years might have been 'bright' ones. J. G. Billingsley of Thomasville, Ga., for three years has been crippled with disease. Now he is well. He writes:

"I spent \$5,000 for other medicines, and the \$100 I have spent with you have done me more good than all the rest. Both money and suffering might have been saved. And these are only three from over 65,000 similar cases. These letters—dozens of them—come every day to me."

How much serious illness the Restorative has prevented I have no means of knowing, for the slightest ailment the indisposed simply get a bottle or two of their druggist, are cured, and I never hear from them. But of those sick ones—seriously sick, mind you—who asked for my guarantee, 99 out of each 100 have paid. Paid because they got well."

If I can succeed in like cases—fail but one time in 10, in diseases deep-seated and chronic—can't it certainly can always cure the slightest ill?

### Why the Restorative Succeeds

You may off and rub, adjust and repair a weak engine. It will never be stronger nor do its work better without sham. More power—more steam is necessary. And so with the vital organs. Doctor them as you will. That's mere repairing. Permanent cures never come save through treating the nerves that operate those organs. And that my Restorative does.

The following diseases are taken up didactically and clinically: Malaria (blood, malaria parasite, microscope, mosquito, plasmodia), blackwater fever, kala-azar, Malta fever, relapsing fever, yellow fever, plague, Japanese river fever, beriberi, splenic dropsy, tropical neurosis, sleeping sickness, hill diarrhoea, spine, typhoid fever, cholera, dysentery, rectitis, hepatitis, liver abscess, leprosy, tetanus, verruga pneumonia, jaws, Oriental sore, boils, prickly heat, phagedena, keloid, gonorrhea, Dhoobitch, various forms of tulla, pinta, piedra, Madura foot, Anthrax, sunstroke, food diseases, St. Maria's, crow-crow, ankly low tomm, Dardent, jigger, myiasis, parasites of intestine, guinea worm, dengue, etc.

The list is long enough to suit the most fastidious. Such diseases as leprosy, dysentery, itch, ringworm, boils, etc., while not strictly tropical, are in the tropics subject to modifications which make them classifiable under the general name.

"The New Modern Webster." Handy desk edition of a dictionary of the English language. Clo. 4x5 1/2 in. 435 pp. Fifty cents. Laird & Lee, Chicago.

A well printed and indexed little dictionary for easy reference. Such a book is of necessity incomplete, but this is the completest for a work of its kind that I have seen. The definitions are good and the pronunciation is simply indicated.

All communications, books and periodicals for this department should be sent to the "Bulletin Bookman," Honolulu, North Kona, T. H.

Care exercised in selecting your lamps in the first place and frequent renewals will largely influence the electric light bill and are of no little importance to the consumer. Get only standard lamps and bear in mind that the life in lamp hours is about 600 hours.

It costs as much to burn an old 16-candle power lamp after it has dropped down to 10-candle power as it does to burn a new 16-candle power lamp; therefore two new 16-candle power lamps can take the place of three old ones.

Anyone desiring further information on this subject will be welcome at our office.

Those Who Use

## Weekly Bulletin, \$1 a Year

## Reasons why you should join the BURIAL LEAGUE OF THE UNITED STATES In preference to all others.

1. BECAUSE—You have only one fixed payment every year—no more, no less—and you get a \$100.00 funeral in event of death.
2. BECAUSE—You can move whenever you please and whenever you please without forfeiting your Burial League rights.
3. BECAUSE—If you wish to draw out after paying five assessments your money will be returned to you.
4. BECAUSE—In case of an epidemic the expense of all funerals is borne by the entire League all over the United States and your annual assessment remains the same.
5. BECAUSE—Rates are charged according to age, thus making the League fair to all.
6. BECAUSE—The contract is backed by a Strong Stock Company with \$50,000 paid-up capital.
7. BECAUSE—If you should live to be 100 years old you could not pay into the League an amount equal the cost of your funeral.

All persons from 3 to 55 years of age in good health are eligible for membership.
